Board Certification: Family Medicine  
Medical School: George Washington University  
School of Medicine  
Internship: George Washington University Hospital  
Residency: George Washington University Hospital,  
Ohio State University Hospital

8640 Sudley Road, Suite 203 | Manassas

**Scott A. Ross, MD**

Board Certification: Family Medicine  
Medical School: Georgetown University School of  
Medicine  
Internship: Virginia Commonwealth University,  
Fairfax Family Practice  
Residency: Virginia Commonwealth University,  
Fairfax Family Practice

8640 Sudley Road, Suite 203 | Manassas

**What is ImPACT™?**

ImPACT™ is a 20-minute neurocognitive test battery that has been scientifically validated to help assess and measure the effects of sports-related concussion. Conducting baseline and postinjury neurocognitive testing using ImPACT™ helps objectively evaluate an athlete's cognitive status to prevent the cumulative effects of concussion. ImPACT™ can help answer difficult questions about an athlete's readiness to return to play, protecting them from potentially serious consequences of returning too soon and avoiding long-term complications.

Contact one of our experts to conduct a full evaluation if a sports-related concussion is suspected.
